America's Electric Cooperative | PAC

Founded in 1966, America's Electric Cooperatives PAC (formerly ACRE®) is the federal political action committee (PAC) of the nation's electric co-ops. NRECA's PAC supports political candidates who will speak for and protect the interests of electric co-ops and their consumer-owners. Backed by over 35,000 individuals making an average contribution of \$65, the PAC is truly grassroots. Since 1966, the values and commitment to advocating for electric cooperatives and their members remain the same. As a cooperative, our members have a unique opportunity to advocate for policies that directly affect electric reliability, affordability and our communities. When we come together as a group, we are strong and our voices are heard. As a true grassroots PAC, America's Electric Cooperatives members can join for just \$2.08 per month, added to your electric bill.

According to WKRECC President & CEO, David Smart, "The electric utility sector is facing unprecedented changes, and we must remain engaged to ensure that reliability and affordability remain the top priorities. We need your support! There is strength in numbers. We need our members involved in demanding policies that are focused on reliable power."

Budget Billing: Is it right for you?

What is budget billing and is it right for you?

Budget billing establishes equal monthly bills throughout the year, making it easier to manage your home utility budget. Budget billing is available to residential members who have a 12-month billing history at their present address and who are current on their payments.

Interested members may sign up each year from March through May. The budget billing agreement must be completed and returned to the cooperative by the May statement penalty or due date. Members already enrolled do not need to reapply. Members can access the budget billing form at wkrecc.com/budget-billing or in office.

If you have questions about this program or about how to enroll, please call our offices at 877-495-7322.
